Rooms 902 & 903

Central Synagogue's newly-renovated meeting and event space includes a 12-person conference room with voice and video technology, a fully operational stainless-steel kitchen complete with ice maker and dishwasher, and two large meeting/event spaces that can be joined as one room.

Each room, used individually, offers a different advantage. For easy and direct access to the kitchen pantry, you may prefer northfacing Room 903. For a warm and welcoming feel, the entrance to Room 902 features two Judaica display cases, which are updated on a quarterly basis.

Both rooms include the ability to playback DVDs, CDs and mp3 players. The rooms also have a wireless microphone system plus wired microphone inputs for clear sound reinforcement in one or both of the spaces.

This space works well for smaller sized receptions, lectures and luncheons.
